

We are estimating this to be completed in two days, weather permitting. If you refer to the “CRYSTAL BAY TREE TRIMMING MAP” picture attached, all the palms and bottle brush trees bordered in **RED** will be trimmed on Monday (the areas circled in **GREEN** are where the bottle brush trees are). And then on Tuesday, we will conduct the palm and bottle brush trimming on everything highlighted in **YELLOW**. So for better terms buildings “A/B” will get the trees completed on Monday, and then the remaining buildings will get completed on Tuesday. Just as a reminder as it is in the agreement, any trees we cannot get due to cars in the way, we will notify you all if you guys can get them moved in time but for the two days on site we will only be able to get what we can due to liability purposes. Anything that might be missed we would have to come back out at a different time for a billable charge.
